

2025

WELCOME FRIENDS

We proudly share with you the 2025 Plantpeddler catalog. An action-packed edition featuring the world's top breeders and elite genetics, along with exciting new introductions. Our focus is bringing to you superior rooted Young Plants; researched, tested, trialed, and proven to perform. A concise program delivering premium varieties to ensure your success and profitability. Performance for you at every level.

In 2025, Plantpeddler is celebrating 45 years, and the future is bright. With a proven and inspired team, we are building upon a four-decade foundation of growth. New initiatives are advancing our production protocols to cultivate higher quality products. Incorporating new and emerging technologies, biological enhancements, advanced chemistry, assimilation lighting, and more, as we strive to provide energy-packed, healthy plants, ready to perform. We promise to continue being relentless in the pursuit of plant perfection.

In life, you need a certain amount of ying and yang. For better than a decade, allowing Plantpeddler to focus on vegetative annuals, our highly valued "yang" is our primary wholesale contract grower, partner, and family of friends, who have produced our seed-grown Finished lines. Great growers, and like so many greenhouses it's all about family, a handshake is a contract, we grow in mutual dependency, and become intertwined in business. Relationships matter. It is what makes Horticulture one of the most unique ag niches.

This family happens to be G. Hoeksema & Sons in Portage, MI. As you may be aware, on May 7th of 2024, in the heart of the Kalamazoo bedding plant industry, a catastrophic tornado ripped through town. Although much of this mecca was spared, the Hoeksema family wasn't. Color ripe greenhouses were easily flattened. Gone in seconds was their plan for a record season. As a family, they will rise up, "Cause that's what we do". This illustrates how fragile we are as an industry. We need to appreciate the beauty which nature allows us to craft into products, and respect the risks we undertake to create. We must celebrate our success and grasp the challenges we accept. Be proud of what you do!

If I don't give a family update, Rachel will never forgive me. The Gooder grandkid clan has grown by two since the last catalog. First up were John and Molly; joining sisters Ella (5) and Mara (3), Nora arrived September 12th. Good luck to John in a house of four girls! As a family follow-up, Abby and Dan added a second son, Eli born on April 2nd. He joins older brother Wyatt (6) and sister Rosie (3). As been said by many greater than me, grandchildren are the greatest gift in our lives. Now working on convincing a few of them to become Plantpeddler's third generation. Pretty sure Ella is ready to sign on.

Please use us for your advantage. Plan on attending Variety Day and Poinsettia Variety Day. Both trials have established themselves as industry "must attend" events. In 2025, we plan to host our second "Educate the Educators" workshop. It was a major success in 2023, and we received recognition from the Iowa Dept. of Agriculture for our contribution to Ag Education. Stay tuned for more details. Speaking of awards, our 2023 catalog won the Great Lakes Graphics Association's "Best Commercial Color Catalog". Special thanks to Deb, our Graphic Designer, and the team at our printer CPC.

As we navigate into 2025, we welcome you to our most extensive yet concise collection to date. We have added over 170 new varieties. This catalog is a powerhouse of genetic opportunity with no mandatory tag or container requirements. We thank you for your business and trust in our company. It is our focus and goal to deliver elite genetics in the highest quality Young and Finished Plants for all seasons. As our recent ads state, "Quality Rooted Liners Equals Grower Success."

Thanks, Mike

About The Cover Artist— Mike Meyer

Back by Popular Demand – Our 2023 Cover Artist Paints Again!

In the colorful history of Plantpeddler covers, we have our only repeat artist creatively gracing the 2025 catalog. This year's entertainment features a graffiti artist defacing our greenhouses with forty-five years splashed onto the end-wall. For those of us a bit more mature, the host of characters may conjure up cartoon magazine memories from our youth.

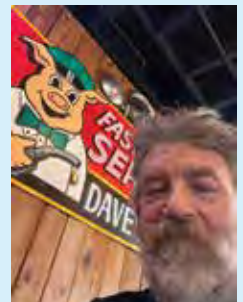

In case you don't recall the story from our 2023 catalog... In November of 2020, Mike Meyer, and wife Ayleen, departed Minnesota, crossed the Upper Iowa River at the border, and arrived in the village of Chester, Iowa. Once reaching the promised land (Iowa), they purchased an empty church and established a new sign painting shop and classroom. And that is the start of the story.

Fast forward four years and Mike has left his colorful fingerprints all around the region, across the country, and in various parts of the world. Mike has an amazing talent, no matter the subject matter, scope of the project, media to paint on, and creative challenge. Beyond art, he has a comedic sense of humor that is infectious.

Dedicated to the tradition of hand sign painting, Mike promotes his craft through workshops to students in the United States, Europe, and beyond. To further foster the art, he has published a book of alphabets from around the world, "Sign Painting — A Practical Guide to Tools, Materials and Techniques" by Mike Meyer & Friends, Better Letters.

From commissioning through creation, his jokes and commentary keep us laughing. If traveling to Plantpeddler from north on Highway 63, you cross the Iowa border into the village of Chester where you can see the amazing talent of this living legend in sign painting. If you are looking for unique custom signage and art for your business, please contact Mike at (507) 421-3940, mikemeyerchester@gmail.com, or stop by his church at 408 Main St, Chester, IA 52134

Who knew sign-painting was a career? Mike Meyer did.

PLANTPEDDLER

Variety Day 2024

“Testing the Best in the Midwest”

Friday, August 2, 2024

9:00 am to 4:00 pm

You are invited! Mark your calendar and make plans to attend Variety Day 2024. The Midwest’s “don’t miss” event of the Summer keeps getting bigger and better. A full day for horticulture professionals in production, distribution, wholesale, and retail. Time to come together with the industry, learn, and connect.

- Complimentary day of genetics, breeders, seminars, tours, food, and networking.
- Trial Gardens feature 1500 varieties of vegetative annuals from a global array of breeders. Meet with breeder representatives in the garden.
- Outstanding educational presentations and idea exchange. This year’s focuses are disease management, offshore stock production, and Begonias.
- Trade show featuring Trial Garden and Variety Day sponsor partners.
- Great place to take photos and gather info for your social media marketing.
- This is a day for you to grow your business! A must attend event.

Make plans to attend. For travel guide and event information, contact us on the web at www.plantpeddler.com, email info@plantpeddler.com or call (800) 827-1654. To ensure we are ready for you, please RSVP on our website. If arriving the night before, please join us for “The Feast at the Farm” special event that evening.

Follow-Up Events: Poinsettia Variety Day 2024 is Thursday, December 5. Variety Day 2025 is Friday, August 1. Please make plans to attend.

We are looking forward to enjoying the day with you and yours!

PRODUCT FORMS AND OFFERING

- Continual focus on your growing success! For 2025, you will discover our most robust line-up of breeders and genetics ever. Working closely with our partner breeders and production farms, we have selected, trialed, and fine-tuned the collection to a concise list of top performing varieties. Our goal is greenhouse, retail, and garden performance. Success in every variety you select. Benchmark to unique varieties from mega breeders to niche specialists.
- Programs to match your operation. Premium inputs to support growers of every size to help you fulfill profitably in your market niche. Product forms, multiples, and volume programs designed to help you grow your business and profits. No forced pot or tag requirements!
- Ready to deliver for you at every stage, every season. Rooted Young Plants, BumpUps, and "Retail-Ready" Finished products to fit your every want, need and season.
 - Young Plants are available through elite brokerage companies (see page 120).
 - Unique BumpUp products fit the niche for quick turns on long cycle crops and are available through the broker network.
 - Finished products are marketed and supported by our in-house Plantpeddler sales team. Please inquire for additional information.
- Find current Young Plant availabilities at www.plantpeddler.com, on major broker websites, and by direct email. Contact us if you wish to receive availability and other timely emails. Can't find what you need? Drop us a call or an email.

DoubleUp™ 25X Rooted Cuttings

- Primary production system for Begonia, Dipladenia, Geranium and Helianthus.
- Bonded media perfect for fine rooted crops, secure shipping, and ease of planting.
- Mix & match! 25 multiple allows you the widest variety assortment in the industry.
- Low multiple, larger size allows for more flexibility in use and container sizes.
- 26/78 Tray. Plug size: 1 5/8" W X 1 3/4" D. Third sheet (26): 3 1/2" X 21"
 - Sold in multiples of 25. 300 per case. 2400 per cart.

EcoLiner™ 50X Rooted Cuttings

- The core configuration utilized for Annuals, Accents, and Garden Mums.
- Enriched propagation protocols to help you create perfect crops.
- Reduces risk versus URCs. Competitively priced! Efficient in shipping.
- Full (100) or half (50) flats allow you to optimize cost and variety mix.
- 51/102 Tray. Plug size: 1 3/16" W X 1 5/8" D. Half sheet (51): 5 1/2" X 21"
 - Sold in multiples of 50. 600 per case. 4000 per cart.

MultiLiner™ 50X Rooted Cuttings

- Assembled using the ISO Sticking Robots for enhanced quality and performance.
- MultiLiners are rooted in tri-lobe trays allowing uniform rooting of each component.
- Multiple stick liners from leading breeders; vigor matched, trialed and proven.
- Fast in planting, allows quick turns, colorful sales, and season-long performance.
- Simplify your combos and increase profits with these formulated mixes.
- Tri-Lobe 50: 1 3/4" W X 1 3/4" D. Sheet 11" X 21"
 - Sold in multiples of 50. 300 per case. 1600 per cart.

SuperLiner™ 50X

- Large format Accents offered in deep 50 trays, bulked up and transplant ready.
- Fully established hefty liners, perfect for combos and individual containers.
- Traditional 50 Tray: 2" W X 2 3/4" D. Sheet: 11" X 21"
 - Sold in multiples of 50. 200 per case. 1200 per cart.

BumpUps™

- Specialized multi-plant liners for quick turns on long cycle finished crops.
- Available in Begonias and Dipladenia. Guaranteed 3 plants per 4.5" mega-liner.
 - Begonias are the perfect solution for quick crop baskets and tubs.
 - Dipladenia are bulked-up with double pinch. Ensures full finish.
- Grown on a prebooked basis only. Order deadline is Sept 15, 2024.
 - Sold in multiples of 20. 100 Minimum. 400/cart. Grower Truck only.

Garden Mum & Aster EcoLiner™ 50X

- Historic crop at Plantpeddler with four decades of production experience.
- Top Mum genetics from Syngenta, Gediflora and Dummen Orange.
- Proven Asters from Syngenta. Combine Mums and Asters from one source.
- Vegetative, node stacked, fully rooted, with 18-hour long days (LED).
- Mix it up! Flexible low 50 multiple per variety. More colors, more flower forms.
- 51/102 Tray. Plug size: 1 3/16" W X 1 5/8" D. Half sheet (51): 5 1/2" X 21"
 - Sold in multiples of 50. 600 per case. 4000 per cart.

Poinsettia Oasis 13 Wedge

- Plantpeddler is the proven leader in premium rooted Poinsettias.
- Genetics from every global breeding program. Match your culture & niche.
- Propagated in proven 13 strip Oasis Poinsettia system for rooted cuttings.
- Proven and perfected rooting protocol, and custom grown to your order.
- Poinsettia Variety Day 2024 is December 5th. Over 150 varieties in trial.
 - Sold in multiples of 50. 100 or 400 per case. 3200 per cart.

Finished Products

- Plantpeddler is your full-service supplier of high-quality blooming and bedding plants.
- With over 40 years of experience, we pride ourselves on growing premium products.
- Available in all seasonal cycles and supported by our in-house sales department.
- Complete retail ready line for Spring, Summer/Fall, and Christmas Holiday Season.
- Quality custom commercial landscape production with an extensive list of references.
- Current availability and order forms available upon request or at www.plantpeddler.com

Plantpeddler Tag Program

- Eliminate the frustration of waiting for tags before you can plant!
- All tags are inventoried in-house, pulled to match orders, and ship with your plants.
- The tag minimum and multiple for Begonias, Dipladenia, Geranium, and Helianthus is 25; for all other rooted liner products the multiple is 50 per variety.
- No mandatory breeder tags or pots required. Tag multiple and no tag options available.

BEGONIA LEADERSHIP

At Plantpeddler, we have a single quest: To bring you the world's best in Begonias.

Growers across the country trust Plantpeddler as their Begonia source. Why? Because at Plantpeddler, Begonias are not a sideline, they are our focus. With over four decades of experience, we have built Begonia relationships at all levels, developed deep knowledge and protocols, and intensive production methods which help ensure your Begonia success. Clean, quality rooted liners with proven performance

WHEN YOU THINK BEGONIAS... THINK PLANTPEDDLER!

HIEMALIS BEGONIAS

from  **Koppe**
THE BEGONIA SPECIALIST

“THE BEGONIA SPECIALIST”

- Proven leadership in the breeding of Hiemalis is the hallmark of Koppe.
 - With Koppe, we will continue to bring innovative new genetics.
 - New Hailey Yellow is the third member in this series. Perfect for mixes.
 - Halo, new last year, is the earliest dark red. Outstanding new option.
- Koppe varieties serve as the core of our 52 Week program.

BEGONIA HYBRIDS

from  beekenkamp
PLANTS

BEGONIA, BEAUVILIA, ENCANTO WATERFALL ANGELS & SWEETSPICE

- Proven performance series in the *B. boliviensis* class. Bold trailing color.
- Beauvilia are compact, mounded, and selected to be more free branching.
 - PP Pick Hot Pink has been improved. Better branching, more flowers.
- Encanto features high vigor varieties with big color impact.
 - Proven in the greenhouse and trial garden with mass color.
- Waterfalls are trendy hybrids featuring abundant two-tone flowers.
 - Easy to grow, with vigor perfect for baskets. Be ready for fast sales.
 - Bicolor is improved with better habit and intensity of the colors.
- Sweetspice is from the Kerly breeding program, represented by Beekenkamp.
 - Fragrance sells. Double bicolor flowers with a sweet, mild fragrance.

GERANIUMS

syngenta flowers

Geraniums represent an essential genus in Spring Annual programs, yet they have well-known risks in production. Geranium production is about risk management! To help mitigate your risk, Plantpeddler partners exclusively with Syngenta Flowers. Their leadership position is driven by a commitment to advance the genus in breeding, elite stock, and most importantly clean protocol production. Cornerstones to ensure grower success and consumer garden performance. We proudly feature the extensive collection of Syngenta Geraniums!

SPRING ANNUALS EL

AGERATUM, BUMBLE

- Bee and butterfly magnets. Vigorous growth and require no deadheading.
- Vibrant flower power with excellent Summer garden performance.

Ageratum Bumble Blue

Angelonia Alonia Big Blue

ANGELONIA

- Combines height and flower power with heat and drought tolerance.
- We are big believers in Danziger's "Big" series. Bred in the heat of Israel.
 - The three PP Pick varieties are exceptional in the greenhouse and garden.
- Performs best with warm soil temps and/or later plant dates.

CALIBRACHOA, MINIFAMOUS

by **selecta** one

- The Neo series are uniform, semi-trailing, with medium vigor; early flowering.
 - Feature large blooms in a wide range of colors.
 - Two new selections broaden the range of classic and novel colors.
- The Uno series represents early, compact-mounded, lower vigor varieties.
 - Includes core colors in solids, bicolors and stars. Matched timing.
 - New Ember Eclipse has unique color-shifting flowers as they mature.

CALIBRACHOA

by **westhoff**

- Leave it to Westhoff to bring "crazy" breeding to the Calibrachoa class.
- It is all craziness in the new Caliloco series, all novelty and diverse.
 - Five varieties including variegated Calico and jumping gene Graffiti.
- Utterly unique Candy Shop varieties have crazy brush stroke bicolor blooms.
 - Ground-breaking Bag of Trix features color changing flowers.
- Chameleon series continually change colors based on environmental factors.
- The early flowering Calitastic varieties boast medium vigor and rich colors.

Kingswood Torch

DAHLIA EL

from **syngenta flowers** & **selecta** GIBB

- Two outstanding series from Selecta highlight the Dahlia lineup.
- City Lights feature dark leaves with contrasting bright flowers.
 - Medium vigor matches Dalaya. Outstanding in 2023 PP Trial Garden.
- Dalaya have green leaves with mid-vigor, big blooms, and unique colors.
 - Selected for less tuber formation, helps to ensure grower success.
 - The dark green foliage is over well-branched, mounded plants.
- Syngenta offers two varieties with the boldest vigor and dynamic blooms.
 - Miss Mandy is a special bicolor in memory of friend Mandy Gerace.
 - Sincerity is a big vigor stand-alone variety. 3-4" bicolor flowers.

EUPHORBIA

- At the top of versatile fillers for combo pots. This is the Baby's Breath of Annuals.
- Hip Hop is one of the overall top selling annuals. Great garden performance.

SHADES OF BLUES & PURPLES

- Add a little blue to your products and combinations. Obscure and unexpected.
- Evolvulus is a perfect mid-blue. Soft mounding foliage with rich single flowers.
- For off the chart funky, try Forever Blue. Mounded with elongated flower stalks.
- Gomphrena's globe flowers come with excellent heat and drought tolerance.
- Highly fragrant with leathery leaves, Heliotrope adds interest. Grow warm and dry.

Euphorbia Hip Hop

GAURA

- Great companion plant and a native pollinator which thrives in heat.
- New Belleza Early White has improved habit and more abundant flowering.

PETUNIA, FLOWER SHOWER & HELLS

by Westhoff

- The Flower Shower series is selected to have high tolerance to rain.
 - o Mounded then trailing habit with intense, saturated colors.
 - o Very-early flowering Golden Harvest and Mayan Sunset are PP favorites.
- Hells bring a color range unmatched in Petunias, with most having the A1 gene.
 - o For the most intense red in Petunia, be sure to grow "THE RED!".

PETUNIA, SANGUNA

by **syngenta** flowers

- Beyond dramatic bicolor flowers, New Painted Love has a great mounded habit.
- Industry proven performance sums up Sanguna. Built for baskets and landscapes.
 - Big flowers in bright colors on well-branched plants with strong vigor.
 - Fills fast, covers soil early, continuous flowers on “old and new wood.”
 - Excellent series which serves as a foundation of successful programs.

Phlox Phloxstar Magenta

Phlox Phloxstar Red

Phlox Phloxstar White

PHLOX

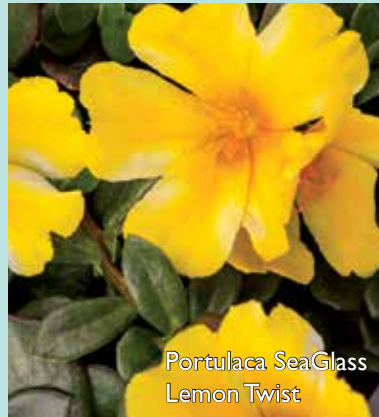

- Phloxstar are regarded as the best in class. Strong branching, early flower:
 - o Highly recommend late planting as not tolerant to cold greenhouse temps.

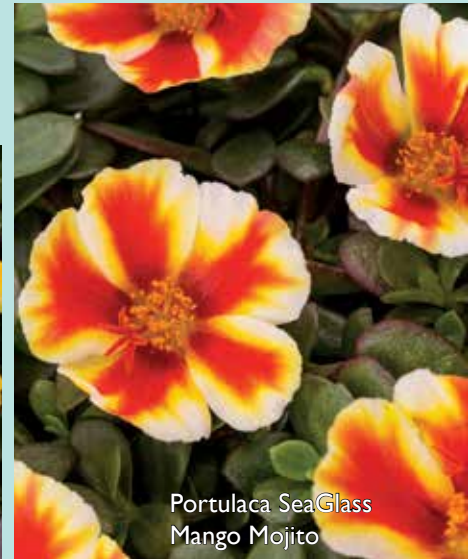

Portulaca ColorBlast Double Dragonfruit

Portulaca ColorBlast Double Magenta

Portulaca SeaGlass Lemon Twist

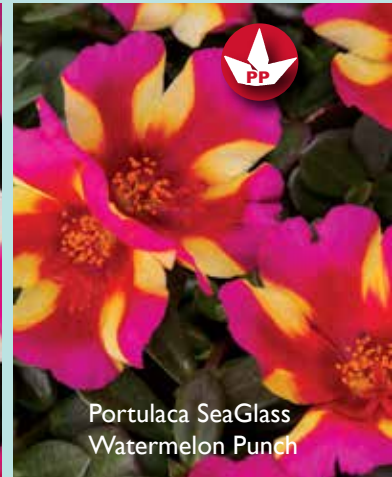

Portulaca SeaGlass Mango Mojito

PORTULACA EL

- Foolproof and failure-proof in greenhouse and garden. Spring thru Fall.
- Israel-based Danziger breeds outstanding Portulaca and are well matched.
 - o Mega Pazzaz varieties offer extra-large flowers on full-vigor plants.
 - o Ideal to grab attention in bold big pots, baskets, and landscapes.
- Several ColorBlast varieties have been moved into the SeaGlass series.
 - o In double and single flower forms, with bicolors, stripes, and more.
 - o Higher vigor with an open plant architecture; mounded and spilling.

Portulaca SeaGlass Pink Lady

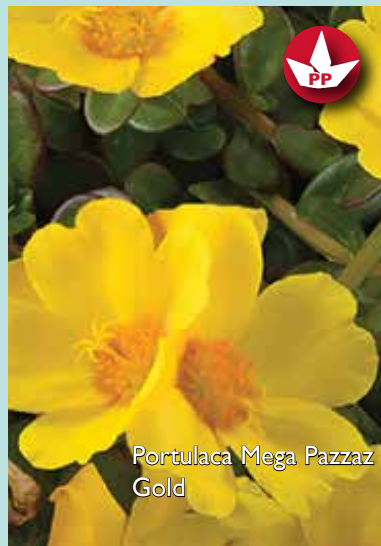

Portulaca SeaGlass Watermelon Punch

Portulaca Mega Pazzaz Dark Pink

Portulaca Mega Pazzaz Fuchsia

Portulaca Mega Pazzaz Gold

Portulaca Mega Pazzaz Mango Twist

Portulaca Mega Pazzaz Orange

Portulaca Mega Pazzaz Purple

Portulaca Mega Pazzaz Red

Portulaca Pazzaz White

RUELLIA

- Referred to as the "Wild Petunia," this happens to be native to lowa prairies.
 - o Forms tidy mounds, with smooth foliage and deer-resistant flowers.

Sanvitalia Powerbini

Ruellia Purple Showers

Sanvitalia Tsavo Compact Yellow

SANVITALIA

- The "Creeping Zinnia" is durable, drought tolerant, and flowers all Summer.
 - o New Tsavo has more controlled vigor and habit versus Powerbini.

SUMMER & FALL INPUTS FROM PLANTPEDDLER

Beyond Spring – Plantpeddler Has You Covered!

Extending your seasons beyond Spring greatly increases income and profit potential. If you are a second season grower, Plantpeddler stands ready with a full array of Young Plant inputs covering a variety of crop options.

Garden Mum Rooted Cuttings

If Mums are part of your Fall production mix, count on Plantpeddler. Representing all top breeding lines including Syngenta, Gediflora, Dummer Orange, and Ball (exclusive to Ball Hort). Since our beginning in 1980, we have been rooted in Mums, when we grew Cut and Pot Mums year-round. Forty years later, we have produced millions; those experiences run deep and drive our production philosophy: Vigorous liners with stacked nodes, toned and ready to perform for you. Flexibility and versatility come with our easy 50 count multiples in our EcoLiner 50X. Add to your mix with Syngenta Asters.

Beyond Mums, Summer & Fall Annuals

Summer and Fall opportunities are not limited to Mums. Decorating with color happens every month of the year; and consumers are starving for fresh, quality plant material. Providing new crops of Annuals in pots, baskets, and combinations serves this niche during a time of year when there is limited competition. Expand your opportunities with Plantpeddler Summer-Fall Annuals.

Plantpeddler Garden Mum Advantages:

- Top breeders, complete variety listings in high quality, fully rooted form.
- Easy to time! All color groups are available covering early to late season.
- Super-charged and ready to grow in our economical EcoLiner 50X tray format.
- Florel treated for no pinch growing, with little or no growth regulators required.
- Mix it up. Available in 50 per variety multiples, allowing for a wider assortment.
- Very competitively priced. Request a quote from your broker.
- Hit the season running and catch the early market!

POINSETTIAS

by  **PLANTPEDDLER**

Poinsettia Possibilities

In Poinsettia production, great starts equal great finishes, and that is where Plantpeddler comes in. There is little margin for error, especially in starting the crop. Risk management necessitates eliminating losses. Poinsettias comprise the second largest genus of Young Plants at Plantpeddler. We take great pride in representing all varieties from all breeders, and being the premier producer of rooted liners. Discover why growers of all sizes rely on Plantpeddler quality Rooted Cuttings and Prefinished Poinsettias. Let us help you with profitable Poinsettia solutions.

Variety Choices!

Select from leading breeders' genetics including: Beekenkamp, Dummen, InBlume, Lazzeri, Rinehart, and Selecta. Varieties to match your market niche, form, and desired finished week. Need recommendations? We are here to advise you on top performing varieties. Also, plan to attend our Poinsettia Variety Day on December 5, 2024.

POINSETTIAS

119

Plantpeddler Poinsettia Advantages:

- All breeders, complete variety listings in high quality, fully rooted form.
- Cover your season! Selections and colors covering early to late season.
- Rooted in the proven Oasis Wedge; 50 per variety allowing a wide assortment.
- Intensive protocol producing healthy liners with well-stacked internodes.
- Full IPM to ensure disease and pest free. Vigorous plants with healthy white roots.
- Very competitively priced. Request a quote from your broker.
- Also, available in Prefinished and Finished stages.

Sales and Ordering

Plantpeddler products are supported through the following market channels:

Young Plants: All products are represented by leading brokerage companies throughout all the United States. If you do not have a supporting broker, please contact us to get your order booked and directed to a trusted broker.

We proudly work through the following brokers – Ball Hort. Co., BFG, Carlin Sales, Eason Horticultural Resources Inc., Express Seed Co., Griffin, Henry F. Mitchell Co., Leo Berbee Bulb Co., McHutchison, and Vaughan's Horticulture.

Finished: Order direct from Plantpeddler and several Finished Plant brokers. Our sales force is ready to serve your needs. Please contact us.

Booked Orders: Our seasonal capacity has limits. We anticipate selling out that capacity at all peak seasons. If you are interested in growing and retailing our products, we highly recommend that you book as early as possible. Lead times vary with product line, genetics, and form to be produced. Please inquire for crop specific lead time information and Early Order Discount (EOD) programs.

Availability: When your needs change during the seasons, we are here to help you fulfill them. Current availabilities are published on our website daily, and you can also request being added to the email availability group (Young Plant and/or Finished). Note: At once orders are subject to availability, and nearest subs may be required to fulfill the order.

Volume Discount: Annual volume discounts are available for all products. For Young Plants, discounts are earned based on prior year volume of all combined product lines shipped October 1 to September 30. Volume level can be recalculated if a higher volume level is reached in the current season. The new volume level will not be retroactively applied to orders already shipped.

EOD: Book your orders early and save! For Spring Young Plant orders, receive an early order discount of 3% on all orders received by Plantpeddler on/or before October 31, 2024 (firm date). There is a separate EOD for Mums and Poinsettias of March 8, 2025. These discounts are above and beyond your "Volume Discount".

Quotes: Looking to grow your volume with us? Please request a quote. Direct this request through your preferred broker, and we will prepare a custom quote.

Pricing: All prices are subject to change without notice. Delivery charges are applied based on product type and service provider. Fuel surcharges may be applied as deemed necessary to offset volatility in energy costs.

Minimum Orders: The order minimum for Young Plant products is one case of rooted cuttings. Minimums vary for BumpUp and Finished products based on product and region. Orders under minimum are subject to surcharges.

Tag Program: Tags are available for all varieties we carry, inventoried at Plantpeddler, pulled to match your order, and shipped with your plants. The default tag ratio for all orders is a "one to one" basis unless clearly specified with the order. Please note "no tags" or a "tag to liner ratio" if applicable. You can place a bulk seasonal tag order and receive a single pre-season shipment. The tag minimum and multiple for Begonias, Dipladenia, Geraniums and Helianthus is 25. For all other liner products, the tag minimum and multiple is 50 per variety. We do not provide tags for custom grown varieties. A 20% restocking fee may be applied to cancelled and/or returned tags.

Cold Weather Shipping: Plantpeddler has no control over weather and shipping perils which may delay or damage products. We are committed to making every effort to ensure lowest cost, but secure delivery. During cold shipping periods winter boxing and heat packs (at a minimal cost) will be employed to protect shipments. If the low temperature at the receiving facility is sub-freezing, we will use priority/overnight delivery options. Call us at (800) 827-1654 if you wish to delay shipping or use a lower cost (slower) method. Please note you will assume the risk for frozen and/or overgrown product.

Culture & Care: Your success matters! Please contact us for growing culture and post-harvest care information. Our team is here to help. If we do not have the answers, we will find them for you. Also, visit our website at www.plantpeddler.com.

Breeders Rights and Trademarks: A majority of the genetics within this catalog are patented and no propagation is allowed. Additionally, series and variety names are trademarked and copyrighted; use of these names without breeder permission is strictly prohibited. Breeders have the right of first refusal for all mutations and sports. Please inquire with any questions.

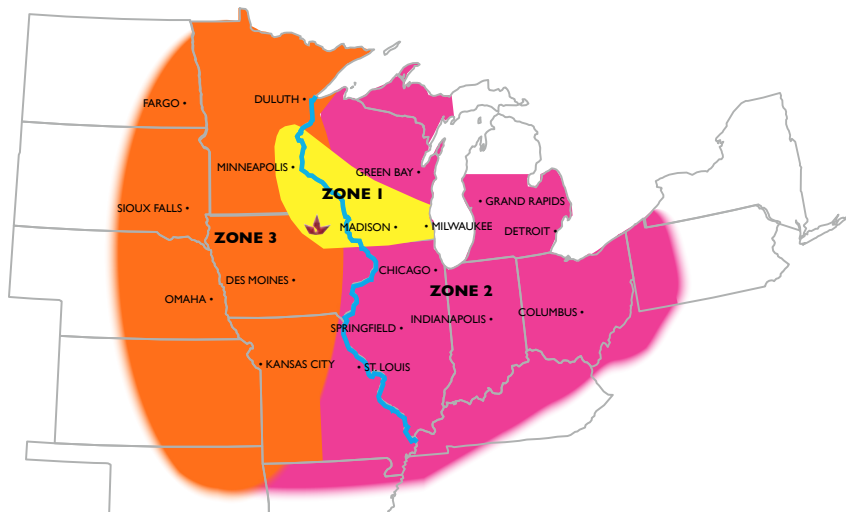

Claims: Complete customer satisfaction is our goal. Please call (800) 827-1654 immediately if you experience any problems or are unhappy with our product. As your grower, we will do everything possible to ensure your satisfaction. Please report all claims to your broker (Young Plants) or to Plantpeddler (Finished Plants) within 48 hours of receipt. All preliminary claims will close after 30 days.

To verify a claim, it must be accompanied by photos. If liner related, please include a second image visibly showing the information on the label adhered to the tray. For Young Plant products, claims will not be considered once liners are transplanted. Mutations, sports, and reversions are beyond our control; these variants are not subject to claims.

Cancellations & Order Changes: Cancellations of booked orders for RC products will not be accepted within 8 weeks advance of the scheduled ship week. BumpUp products are custom grown to order; no cancellations are accepted. Orders cancelled inside of these lead times will be billed to the broker of record; we will accommodate the broker's effort to resell. Subject to availability, we will make every effort to fulfill order additions up to one week prior to the scheduled ship week.

Visible & Hidden Damages: Please closely inspect all boxes BEFORE you sign for them. Note all damages on the shipping documents. Most freight companies will only honor claims listed on the original shipping documents. For Grower Truck deliveries, please note on the BOL when signing for the delivery.

Warranty: Plantpeddler, Inc. disclaims all expressed or implied warranties, including, but not limited to, merchantability, title, non-infringement, and/or fitness for a particular purpose. We do not warrant that plants will be free of disease, bacteria, virus, genetic defect, mutations, syndromes, insects, or other pests. We make no warranty for crop yield, crop quality, or merchantability of the crop. Plantpeddler, Inc.'s liability, under any theory of liability, arising out of or in connection with the sale of plants or otherwise will not exceed the purchase price of the plants. Plantpeddler, Inc. will not be liable for incidental or consequential damages of any sort, whether direct or indirect.

GROWER TRUCK SERVICE REGION

TRANSPORT AND LOGISTICS

Our professional team at Plantpeddler is committed to delivering secure, expedient, and efficient freight solutions with on time delivery to your door. Shipping options include:

Young Plant Grower Truck Program: Safe and secure. To better serve our growers, for 2025, more routes throughout the Midwest plus coverage East into Pennsylvania and South into Oklahoma, and all points North. This method ensures the highest quality product reaches your greenhouse. We are willing to expand our territory. Contact us regarding Grower Truck coverage to your site.

The Young Plant shipping zones for 2025:

Zone 1 – Core Region ships on a weekly basis all Young Plant seasons.
Again for 2025: 50% discount from standard grower truck shipping.

Zone 2 – East Region ships even weeks 4 through 16, and for Mums & Poinsettias.

Zone 3 – West Region ships odd weeks 5 through 15, and for Mums & Poinsettias.

Please use the even and odd weeks for your zone to ensure Grower Truck service. Increased truck service occurs during peak weeks. We will contact the broker and/or the grower to help adjust delivery dates to ensure truck service. Routes are subject to minimum volume requirements per region. Pooled truck delivery is available for small volume orders.

Unless specified on order, all products are cart delivered. If you do not have the ability to handle carts, please notify us. If door height is an issue, you may request orders to be delivered on short carts, which fit through a standard door. Orders requiring boxing will be billed at standard packing charge rates.

Finished Grower Truck Program: In addition to our Young Plant Grower Truck program, we also deliver all in-season Finished Plant Products on Plantpeddler controlled trucking. We bring color right to you on established weekly routes. Please contact us for the route schedule for your area.

Dedicated Truck Program: By the load, deliveries can be made outside of the standard Grower Truck area with minimums that vary with distance, typically ten carts. These orders can be assorted product lines. We can also help coordinate pooled truck options, grouping orders in your region. For these options, call for a customized quote.

National Young Plant Shipping Program: To serve customers outside of the Grower Truck area, we have developed a system with trusted carriers. It is our commitment to improve our process and ability to perform for all growers. Options include:

- **Parcel Shipments:** We have negotiated aggressive discounts with FedEx. They serve as our primary parcel shipper for Young Plant products. Cold weather priority shipments are dropped directly at the Rochester, MN FedEx terminal. We work closely with them to ensure dependable and timely shipments to your door.
- **Air Freight:** Often overlooked, air freight is a safe and cost-effective option. Expanded service for 2025, we have negotiated favorable rates with Southwest, Alaska Air, and others. Departure from Minneapolis, via commercial air freight services to most major airports. Proper handling instructions, airport destination with pick-up, phone on arrival, or re-delivery instructions are the responsibility of the broker/customer. Please inquire for more information.
- **Grower's Choice:** We are always open to your input! If there is a freight method that works best for your unique situation, we are committed to explore and investigate how we can meet your wishes. Please feel free to discuss your freight situation with your broker or directly with us. Your success matters to us!

Customer Pick-Up: Available weekly on Thursday and Friday, 8:30 AM to 5:00 PM. Please call to schedule your pickup, or you will be contacted at least 48 hours in advance to set the date and time. Orders requiring boxing will be billed at standard packing charge rates. Address for Plantpeddler Young Plants: 524 7th Street S.W. Cresco, IA

Universal Case Pack System: The Operations Team at Plantpeddler continues to improve and evolve our shipping systems to allow you flexibility in ordering and efficiency in freight costs. The new "Universal Case Pack System" allows for all product lines to potentially be mixed in a single case. As an example, 100 MultiLiner, 200 EcoLiner and 150 DoubleUp rooted cuttings can be packed in a single case. This allows for improved packing and fewer partially filled cases, optimizing freight charges.

General Information: All orders are FOB Plantpeddler, Cresco, IA. Except for Grower Truck, all shipping methods are at the customer's risk.
